

Komal Singh Shekhawat

Dehradun, India | +91-9258061649 | komalsinghshekhawat825@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Fresher with hands-on experience in machine learning, deep learning, and data analytics. Skilled in building end-to-end ML models, preprocessing structured and unstructured data, and developing real-world solutions using Python, NLP, and computer vision. Passionate about applying AI in healthcare to build impactful, scalable solutions.

EDUCATION

Bachelor of Technology – Computer Science Engineering (AI & ML)

2021 – 2025

Dev Bhoomi Uttarakhand University, Dehradun, India

Relevant Coursework: Machine Learning, Artificial Intelligence, Data Structures, DBMS, NLP, Statistics, Linear Algebra

TECHNICAL SKILLS

Programming Languages: Python, SQL

Python Development: OOP, Exception Handling, File Handling, Modular Programming, Automation Scripts

Backend & Data: REST APIs (Basics), Data Processing, Data Validation, ETL Pipelines

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, PyTorch, Matplotlib, Seaborn

Databases: MySQL (CRUD Operations, Joins, Queries), SQLite

Tools: Git, GitHub, Jupyter Notebook, VS Code

Visualization: Power BI, Excel

EXPERIENCE

Machine Learning Intern — Suvidha Foundation

Aug 2025 – Oct 2025

- Worked on real-world ML use cases involving data preprocessing, model training, and performance evaluation.
- Built a **CNN-based Clothing Classification model** achieving **85% accuracy**.
- Developed a **Credit Card Fraud Detection system** with **91% accuracy** using supervised learning techniques.

Data Science & AI/ML Club — Dev Bhoomi Uttarakhand University

Dec 2021 – Apr 2025

- Designed and deployed end-to-end ML pipelines including data preprocessing, feature engineering, training, and evaluation.
- Built a **Facial Recognition Attendance System** using deep learning with **97% accuracy**.
- Developed ML projects including a **Movie Recommendation System** and an **Email Spam Classifier** using NLP techniques.
- Created analytical dashboards using **Power BI** to extract business insights and performance trends.
- Collaborated with team members and mentored juniors on ML concepts, EDA, and best practices.

PROJECTS

Image Classification System

[GitHub](#)

Built a deep learning-based image classification model to classify images into five categories. Performed data preprocessing, augmentation, and evaluation to achieve **92% accuracy**.

Tech Stack: Python, PyTorch, NumPy, Pandas, PIL, Colab, EDA

OLA Performance Analytics Dashboard

[GitHub](#)

Analyzed **1 lakh+ ride records** to identify revenue trends, peak demand hours, and cancellation reasons. Delivered actionable insights using visual analytics.

Tech Stack: Python, Power BI, Pandas, Numpy, SQL

CERTIFICATIONS

Python (Basic) — SQL (Basic, Intermediate) – HackerRank

Power BI (PL-300) – Microsoft

Machine Learning Fundamentals – Microsoft

Google Cloud Database Engineer- Google
